

Excellence in Every Detail

Gardner Denver

BLE SERIES ROTARY SCREW COMPRESSORS

BLE07 (7.5KW) - BLE22 (22KW)

A compact, free standing, silenced package, delivering a high output to foot print ratio with minimum running costs.

FEATURES THAT BENEFIT YOU

- New Delcos Pro control system ensures reliable operation and protects your compressor by continuously monitoring the operational parameters.
- High efficient drive arrangement reduces running costs.
- Advanced automatic belt tensioning device is fully maintenance free keeping servicing costs to a minimum.
- Optimum cooling ensures low operating temperatures, enabling the compressor to operate with maximum compression efficiency and minimum power input thus reducing power costs.

- Effective intake filtration protects the compression elements and extends element life, contributing to low total life costs.
- Efficient separation ensures an extremely low oil carry over therefore protecting downstream equipment.
- Low noise and vibration levels allow installation adjacent to the production environment and eliminates the need for special foundations thus reducing installation costs.
- Small footprint: saving expensive factory space.
- Easy to install, operate and maintain.

2008 Plant Engineering Product of the Year Winner

Heliflow Industrial Series

Positive Displacement Blowers and Vacuum Pumps

- Solid Helical tri-lobe rotors
- Greater durability with and increased capacity for overhung load
- Refined timing and locking device incorporates a frictional key-less shaft gear locking ring
- Advanced piston ring air and oil seals for a dependable supply of oil free air
- Spherical roller bearings

Gardner Denver

International Partnerships

Gardner Denver is a leading international provider of compressed air and gas, vacuum and fluid transfer technologies to industries throughout the world. With more than 150 years of manufacturing experiences, they have earned the trust of our customers.

Allied Air Products and Services Pty Ltd are proud to offer the market-leading Gardner Denver range and also offer skilled maintenance and repair services for other makes and models.

Based in Knoxfield, Victoria, Allied Air will establish a nationwide distribution network to represent Gardner Denver compressor products from 7 kw to 375 kw including the latest models fitted with the air smart controllers which reduce energy use and maintenance costs.

The Service Team

Whether you require a service, spare parts, repairs or major overhauls to your machinery our staff will work with you to provide the right solution.

What you can expect

- Scheduled preventative maintenance.
- Flexible service options to meet your needs.
- Fixed price service agreements.
- We will contact you when your equipment is due for service.
- Predictive analysis such as oil sample analysis; vibration analysis included in the service preventative maintenance agreements.

Service

We have the expertise and experience to service many makes and models of compressors, blowers, portable diesel compressors, air dryers and tools.

- Customer focused.
- Highly trained and experienced workforce.

Quality spare parts

All our spare parts we use are manufactured to the highest specification and we can provide spare parts for many makes and models.

Our Product Range

Air Compressors

Blowers

Dryers

Filters
